PROFILE

I am a Frontend Developer with a strong foundation in full-stack development, allowing me to understand both the client and server sides of web applications. My primary focus is on creating user-friendly and visually appealing web interfaces. I am skilled in HTML, CSS, and JavaScript, and I enjoy bringing design concepts to life using modern frameworks like React, NextJS and Vue. I am detail-oriented, enjoy problem-solving, and am always eager to learn new technologies.

EMPLOYMENT HISTORY

Feb 2022 — Present

Balesin.id

Jakarta

- Developed a scalable web application for product transactions using **NextJS**, significantly improving the user experience and reducing load times by 30%.
- Created a dynamic landing page using **ReactJS**, enhancing customer engagement and conversion rates.
- Built a CMS dashboard with **ViteJS** React and Ant design as CSS Framework for efficient content management by internal teams.
- Developed a cashier application using **React Native Expo**, allowing seamless mobile-based transactions.
- Consistently improved the **UI and UX** of each application to ensure a better user experience.

Feb 2021 — Feb 2022
